

Activity B.11
Homing Pigeons II

Game Objectives: All players work together as quickly as possible to help all pigeons fly home to roost in their own nests before nightfall (the end of play).

Recommended Number of Players: 1 - 6

Ages: 6 - 8

Setup:

- 1) Staircases set up in order counterclockwise 1x → 12x.
- 2) Match the color of each foam card to the corresponding staircase. Note: Use the forest green foam card with the bright green staircase.
- 1) Select the tokens representing the multiples for the staircases that you choose to use (you can use staircases 2x → 12x or you can choose only a few staircases to use) and put them directly into the Treasure Trove. These are now pigeons.
- 3) Mix up the pigeons in the Treasure Trove.

Play:

- 1) Each player selects a pigeon and then places it number side up in any nest (notch) in the tree (staircase) that matches the color of the pigeon.
- 2) Continue until the Treasure Trove is empty and all pigeons are in the correct tree.
- 3) Now all players should put the pigeons in their own nests (in sequence from the smallest number at the bottom to the greatest number at the top) as quickly as possible.
- 4) Try to beat your team's personal best. If it took less than 20 minutes to get all pigeons in their correct nests, your team has a bright future in bird support!
