

Homing Pigeons III

Game Objective: Help all pigeons fly home to roost in their own nests at the correct elevation. All players work together as a team as quickly as possible.

Recommended Number of Players: 2 – 8

Ages: 7 - 9

Setup:

- 1) Put staircases in counterclockwise sequence 1x → 12x.
- 2) Using the foam card that matches the color of the staircase, place the multiples on the Mountain. Use the forest green foam card with the bright green staircase.
- 3) Tokens will become pigeons, staircases will become trees, and notches on the steps will become nests.

Play:

- 1) Players should check to make sure the multiples are correct. The tokens are now pigeons.
- 2) Have all pigeons flock to the Treasure Trove. Mix up all the colors of pigeons in the Treasure Trove.
- 3) Each player should select a pigeon and help it find first its own tree (using color) and its own nest at the correct elevation (using skip counting & multiplication skills).
- 4) Continue play until the Treasure Trove is empty and all pigeons are roosting safely in their own nests for the night.
